## Population Growth and Estimated Deviations

The Statewide Database has released reallocated state prison population, the final dataset that Cities and Counties must use to comply with the Fair Maps Act. This population identifies the whole count of persons and where they resided as of April 1, 2020 with the state prisoner reallocation per state law. Redistricting Partners has concluded the work of placing this data into the census blocks, block groups, and tracts.

This population change most notably includes a growth of 5,984 residents in District 345, and a loss of more than 1,000 residents in District 6.
